SCHEDULE

S.I. 1982 No. 204

Barbados National Standards Institution (Certification Marks)

CAP. 325A

**BARBADOS NATIONAL STANDARDS INSTITUTION
(CERTIFICATION MARKS) REGULATIONS, 1982**

Authority : These regulations were made on 8th November, 1982 by the Barbados National Standards Institute with the approval of the Minister under section 9 of the *Barbados National Standards Institution (Certification Marks) Act*.

Commencement: 15th November, 1982.

Citation

1. These Regulations may be cited as the *Barbados National Standards Institution (Certification Marks) Regulations, 1982*.

Definitions

2. In these regulations

“applicant” means a person or organization who makes application to the Institution for a licence to use a standard mark;

“licence” means a licence granted under the Act and in the manner specified in these regulations to use a standard mark in relation to any article or process which conforms to a particular Barbados National Standard; and
“licensee” has the corresponding meaning;

“standard” means a Barbados National Standard as defined by section 2 of the *Control of Standards Act, Cap. 326A*, and any other standard recognized by the Barbados National Standards Institution in accordance with these regulations.

Forms

3. The forms set out in the *Schedule* are to be used for the purposes of these regulations.

Notification and publication of standard

4.(1) Where the Barbados National Standards Institution, in these regulations referred to as “the Institution” has

- (a) established a standard;
- (b) recognized a standard;
- (c) amended an established standard; or
- (d) cancelled an established standard,

the Institution shall cause the notification of that fact to be published in the *Official Gazette*.

(2) Without prejudice to paragraph (1), the Institution shall publish, in the manner approved by the Minister, every standard that is established, recognized, amended or cancelled.

(3) In a publication for the purposes of paragraph (2) the following particulars must be specified

- (a) the number and title of the standard that is established, recognized or cancelled;
- (b) the number and title of any standard that is superseded by a new standard;
- (c) in the case of a standard that is recognized by the Institution, the name of the organisation which prepared and established the standard; and
- (d) any other particulars as the Institution determines.

(4) Unless otherwise specified, all standards and any amendments thereof take effect from the date of publication of the notice thereof in the *Official Gazette* in accordance with paragraph (1).

Publication of standard marks

5.(1) The Institution shall cause the design and description of each standard mark and the number and title of the standard to which it relates to be published in the manner approved by the Minister.

(2) No mark that resembles or is identical with any mark published by the Institution as a standard mark shall be registered as a trade mark under any other enactment.

(3) When a standard mark is published in respect of an article or process no person, other than a licensee, may make any public claim that his product conforms to the relevant standard or that it is entitled to bear the relevant standard mark.

(4) Where a standard mark is not published in relation to an article or process, a person may, with the written approval of the Institution, make public claim that his production or process conforms to the relevant standard if that product or process in fact conforms to the published standard.

Purchase and examination of standards

6. All standards published by the Institution may be

- (a) purchased at the headquarters of the Institution; or
- (b) examined at the Public Library.

Applications for licences

7.(1) Every application for a licence to use a standard mark

- (a) must be in Form I as set out in the *Schedule* and must be completed and signed by the applicant or a person authorized by him;

- (b) must be accompanied by a statement giving details of any scheme of inspection and testing maintained by the applicant for controlling the quality of the article or process in respect of which the licence is sought; and
 - (c) must be accompanied by the prescribed fee.
- (2) The Institution must cause written acknowledgement to be given in respect of every application received.

Determination of application

- 8.(1) In the determination of an application the Institution may
- (a) require the applicant to produce evidence that the article or process in respect of which the licence is sought conforms to the appropriate standard;
 - (b) require the applicant to produce evidence of a scheme of testing and inspection that is designed to ensure that the product in relation to which the mark has been applied for conforms to the relevant standard;
 - (c) require the applicant to provide reasonable facilities that would enable an inspector to verify evidence supplied in support of an application;
 - (d) request any supplementary documentary evidence in support of any statement in the application;
 - (e) direct the applicant to submit samples, at his own expense, to a designated laboratory or test house; or
 - (f) require the applicant to carry out alterations to the scheme for testing and inspection.
- (2) No application is complete unless all matters that are requested or required to be submitted to the Institution are so submitted.
- (3) In the determination of an application, the Institution may, with the approval of the Minister, afford an applicant or a person authorized by him, a

reasonable opportunity to make oral representations to the Institution in support of his application.

(4) The decision of the Institution in respect of every application under paragraph (1) must be communicated to the applicant in writing; and where an application is refused the grounds for the refusal shall also be stated in the communication.

Form and duration of licence

9.(1) A licence to use a standard mark

- (a) must be in the Form II as set out in the *Schedule*;
- (b) is valid for a period of one year but may be renewed if the licensee makes application therefor at least 1 month before the expiration of his licence;
- (c) takes effect on payment of the annual licence fee specified in paragraph (3) of regulation 18;
- (d) is subject to such terms and conditions as the Institution determines.

(2) An application for the renewal of a licence must be in Form III as set out in the *Schedule* and must be accompanied by the fee specified in paragraph (1) of regulation 18.

(3) If the Institution determines that the terms and conditions subject to which a licence is granted should be varied, the Institution must give 1 month's prior notice to the licensee.

Suspension or cancellation of licence

10.(1) The grounds upon which a licence may be suspended or cancelled are:

- (a) that the articles marked with a standard mark do not conform to the relevant standard;
- (b) that the licensee has used the standard mark in respect of a process that does not conform to the relevant standard;

- (c) that the licensee has failed to facilitate an Inspector in the performance of his duties under the Act;
 - (d) that the licensee has failed to comply with any term or condition of the licence.
- (2) Before the Institution suspends or cancels a licence, it shall cause the licensee to be given 14 day's notice of its intention to suspend or cancel his licence and the grounds upon which the proposed action is based.
- (3) On receipt of a notice under paragraph (2) the licensee may, within 7 days of the receipt of that notice, make written submissions to the Institution; and that Institution may grant the licensee a hearing within 14 days of the receipt of such written submissions.
- (4) A decision of the Institution to suspend or cancel a licence and the ground upon which it is based shall be communicated in writing to the licensee.
- (5) The Institution shall cause the suspension or cancellation of a licence and the particulars of that licence to be published in the *Official Gazette*.

Effect of suspension or cancellation of licence

- 11.(1) Where a licence is suspended or cancelled or a term thereof is varied in accordance with these regulations the licensee shall immediately discontinue the use of the standard mark; and where a term thereof is varied the licensee may only use the standard mark in accordance with the terms of the licence as varied.
- (2) Where a licensee has in his possession or control any articles that are marked in a manner that is inconsistent with a suspension or cancellation of a licence or with the variation of a term of that licence, the licensee shall take all reasonable steps to ensure that the standard mark on those articles is removed, cancelled, defaced or erased.

Licensee's arrangements for inspection and testing

- 12.(1) A licensee shall establish and maintain, to the satisfaction of the Institution, a system of control by means of testing and inspection that is designed

to ensure that the quality of his production or process is consistent with the terms and conditions of his licence.

(2) A licensee shall maintain a permanent record of all tests and inspections and other data as may be specified in the licence as evidence of his satisfactory compliance with the system of control referred to in paragraph (1).

(3) A record maintained for the purposes of paragraph (2) shall be made available to an inspector on demand.

Procedure at inspections

13. Where an inspector makes an inspection for the purposes of the Act the following procedures must be followed:

- (a) if an inspector proposes to take a sample of any material or substance he must do so in the presence of the licensee or the applicant or a person authorised to represent the licensee or applicant, as the case may be;
- (b) where an inspector considers it prudent that a sample should be covered and sealed or if a licensee or applicant so requests, the inspector must cover and seal the sample in the presence of the licensee or applicant;
- (c) an inspector shall give a receipt for each sample taken and shall retain a duplicate copy of that receipt signed by the person in whose presence the sample is taken;
- (d) samples taken by an inspector must be labelled and the respective labels must contain details relating to each sample;
- (e) impressions of the seals used must be recorded in the inspector's report.

Technical audit

14. In carrying out a technical audit of any activity or operation relating to a particular product or process with which a certification mark is associated, an inspector may examine

- (a) the raw materials;

- (b) the process and the process of control;
- (c) the intermediate products, if any;
- (d) the scheme of inspection and testing;
- (e) testing equipment or facilities;
- (f) equipment, maintenance and calibration schedule;
- (g) records relating to products sold or exported;
- (h) records of test results; and
- (i) records of raw materials purchases,

of a licensee or an applicant.

Inspectors and Inspections

15.(1) An inspector's certificate of appointment must be in Form IV as set out in the *Schedule*.

(2) An inspector shall submit to the Institution a detailed report of every inspection made by him for the purposes of the Act.

(3) The Institution shall cause at least 6 inspections to be made in every year in respect of each licence.

(4) If a special inspection is made at the request of an applicant or licensee, the Institution shall charge a reasonable fee to cover the expenses incurred in making the inspection.

Register of licences

16.(1) The Institution shall cause to be maintained a register of all licences.

(2) The register of licences shall contain all material information respecting

- (a) all licences and licensees; and
- (b) all renewals, suspensions and cancellation of licences.

Register of laboratories

17.(1) The Institution shall cause to be maintained a separate register of each testing laboratory that is recognized by it for testing samples of articles or processes in relation to a particular standard.

(2) A register for the purposes of paragraph (1) must be in Form V as set out in the *Schedule*.

Fees

18.(1) An application for the grant of a licence shall be accompanied by a fee of \$50; and an application for the renewal of a licence shall be accompanied by a fee of \$20.

(2) A fee submitted under paragraph (1) is not refundable.

(3) An applicant who is granted a licence shall pay an annual licence fee of \$100 and a marking fee proportionate to the quantum of the annual production of the article or process in respect of which the licence is granted.

(4) The Institution may, with the approval of the Minister, determine the marking fee; and the fee so determined shall be published in the *Official Gazette*.

Payment of fees

19.(1) The annual licence fee shall, in the first year, be paid at the time of the grant of the licence and thereafter within 1 month of the date of expiration specified in the licence.

(2) The marking fee shall be paid in the manner specified in the second schedule to the licence.

SCHEDULE*(Regulation 3)***FORM I***(Regulation 7(1))***BARBADOS NATIONAL STANDARDS INSTITUTION (CERTIFICATION MARKS) ACT, CAP. 325A****APPLICATION FOR LICENCE TO USE A STANDARD MARK**
